[ioannisparaskevopoulos@gmail.com](mailto:ioannisparaskevopoulos@gmail.com)

"Software Engineering student with a strong interest in full-stack development and cybersecurity. Actively learning and developing skills to build scalable applications, tackle complex problems, and contribute to increasing profits. Seeking opportunities to apply knowledge through internships or project-based roles."

## PROFESSIONAL EXPERIENCE

[ShineandClickphotography.gr](http://ShineandClickphotography.gr)

Web Developer|Freelancer|October 2024

Shine and Click, a company based on the beautiful island of Kos, entrusted me to create a website to showcase their work. Through this project, I achieved the following:

- I created a stylish and **functional navigation menu**, ensuring easy access to the main sections of the website.
- I designed a **responsive website** for flawless display on mobile devices, tablets, and desktops.
- I implemented a showcase of the company's work, including photos and descriptions of its services.
- I highlighted the contact details, making it easy for visitors to reach out to the business.

Thesis Project|University of Peloponnese, 2024-2025(6months)

Software Developer

- Designed and developed a **self-order kiosk system** using the **MERN stack** (MongoDB, Express.js, React.js, Node.js), enabling users to place orders efficiently.
- Implemented an **Admin Screen** for managing orders, in real time.
- Created a **Queue Screen** to display real-time order statuses,
- **Order Selection Screen** that allowed customers to browse menus, customize their orders, and complete transactions seamlessly.

## EDUCATION

Undergraduate Student in **Computer Science and Software Engineering**

[University of Peloponnese](#)
